

Please read this important message from Gilbert Community Schools

June 22, 2020

Gilbert Staff & Families,

Return to Learn Updates:

We have five sub-committees formed that have started this work. Each committee has a blend of administration, staff, and community members.

- Infrastructure
- Health and Safety
- Curriculum & Standards
- Social-Emotional-Behavioral Health (SEBH)
- Equity

This work needs to be submitted to the state by July 1st. Once approved, we will begin the implementation process.

Through our Return to Learn work, we will be creating and sending out surveys related to the focus areas. It will be very important to get feedback from all our stakeholders. As these come out please take the time to share your thoughts. We don't want to bombard you, but we do need your feedback. Thank you in advance.

Baseball/Softball Updates:

We are currently studying all the guidance and limitations that have been provided to us from the Department of Education, CDC, and Iowa Department of Public Health to determine how to best move forward. Below are some key points that may answer some questions you have.

- The guidance relates to limited groups of students.
- There will be no middle school baseball or softball.
- High school baseball and softball are the only sports allowed to play if all guidelines can be met. No other sports or clubs are permitted at this time.

- No concession stand will be available.

The safety of our students and staff remains our top priority. We will continue to review this recently released guidance and the appropriate mitigating factors to make decisions to prioritize the safety of our community. Please look for more information to come out soon.
