

MEET THE CANDIDATE

Jim Savage

My name is Jim Savage, I have been married to my wife for 18 years and we have 2 boys who are 13 and 8 years old. We moved to Gilbert a little over 6 years ago. My wife and I knew from the time our oldest son was 2 that we wanted our kids to go to Gilbert schools. Since moving to Gilbert I volunteer coached for Gilbert youth soccer for 5 years and serve on the board of the Gilbert Soccer Club as the director of fields. You may have seen my son and I out painting lines on all the fields the past few years. Professionally I run and manage an electrical contracting operation with 20 field electricians. I have been in the trade for more than 20 years where I went to trade school and worked my way up. I enjoy seeing the evolving trade and teaching the younger generation good hands-on skills that they could turn into a career if they chose. This is one of the many reasons I would like to be considered for the Gilbert School District board member to help see that our youth is presented with an opportunity to pursue an education and career in trades like electrical, and all trades in the construction industry. We moved to Gilbert because of the reputation our schools have, and I will work to keep that reputation going and serve for the interest of our community and the kids who will be around to keep building and growing it.
